No More Smoking!

I have some very good reasons to stop smoking; I believe it is very bad for your health and people you smoke around health. I’m sick of smelling smoke from a cigarette while I walk somewhere the smell is EVERYWHERE!

Cigarettes are too expensive. Families these days are spending too much money on cigarettes. The money you spend on cigarettes could be spent on better things. I’m also sick of my Dad ordering cigarettes; I can’t even stand the word anymore.

Smoking causes lung cancer and other cancers, every time you smoke it brings you closer to cancer. It’s a very big risk. There are lots of people who have died of cancer and still thousands of people who are suffering from cancer.

It’s not only the smoker who will be affected; it’s also their family and the public. If you have a family and you smoke it’s also ALL your family who will be affected if you smoke at home. When you walk down a street while smoking, the public who is around may also get affected a little.

I hope I have convinced you to quit smoking. It’s a disgusting habit and the world will be a better world.
